

Nishant Care

1. Introduction

About Nishant Care

Nishant Care is a patient-centered healthcare clinic located in **Baneshwor, Kathmandu, Nepal**. The clinic is dedicated to providing accessible, reliable, and compassionate healthcare services to individuals and families.

Nishant Care brings together qualified healthcare professionals and organized patient services to support general consultation, specialist care, preventive healthcare, diagnostic services, and health education.

The clinic focuses on creating a comfortable environment where patients can receive professional guidance, understand their health concerns, and access appropriate healthcare services.

Our Mission

Nishant Care aims to provide:

- Accessible and patient-focused healthcare
- Professional medical consultation
- Reliable health information
- Respectful and confidential patient care
- Convenient appointment and follow-up services

Our Vision

To become a trusted community healthcare center known for professional service, patient safety, accessibility, and compassionate care.

4. Departments and Services

Nishant Care provides healthcare services through multiple medical departments.

General Medicine

The General Medicine department provides consultation for common health concerns, routine health assessments, minor illnesses, and ongoing health management.

Services may include:

- General medical consultation
- Routine health checkups
- Symptom assessment
- Preventive healthcare guidance
- Follow-up consultations
- Referral to specialists when necessary

Cardiology

The Cardiology service provides consultation and evaluation for cardiovascular health concerns.

Services may include:

- Cardiology consultation
- Blood pressure assessment
- Cardiovascular risk evaluation
- ECG services
- Follow-up for cardiovascular conditions

Dermatology

The Dermatology department provides consultation for common skin, hair, and nail conditions.

Services may include:

- Skin consultation
- Acne assessment
- Allergy-related skin concerns
- Hair and scalp consultation
- Common skin infection assessment
- Follow-up care

Pediatrics

The Pediatrics department provides healthcare services for infants, children, and adolescents.

Services may include:

- Child health checkups
- Growth and development monitoring
- Common childhood illness consultation
- Nutritional guidance
- Vaccination-related consultation

Gynecology

The Gynecology department provides women's healthcare services.

Services may include:

- Women's health consultation
- Menstrual health consultation
- Routine gynecological examination
- Pregnancy-related consultation
- Preventive health screening

Orthopedics

The Orthopedics service provides consultation for musculoskeletal and orthopedic concerns.

Services may include:

- Joint and bone consultation
- Back pain assessment
- Sports injury consultation
- Musculoskeletal evaluation
- Follow-up care

Diagnostic Services

Nishant Care provides or coordinates selected diagnostic services.

These may include:

- Blood tests
- Urine tests
- Basic laboratory investigations
- ECG
- Ultrasound
- X-ray
- Other diagnostic investigations based on clinical requirements

Availability of individual diagnostic services may vary.

Preventive Healthcare

The clinic encourages patients to maintain regular preventive healthcare practices.

Preventive services may include:

- Routine health checkups
- Health screening
- Lifestyle counseling
- Nutrition guidance
- Vaccination services
- Preventive health education

Health Education

Nishant Care provides general educational information about common health conditions, healthy lifestyle practices, prevention, and situations requiring professional medical attention.

Health education is intended for general informational purposes and does not replace medical consultation.

5. Appointment Services

Booking an Appointment

Patients can book appointments through:

- Nishant Care reception
- Phone: 9866835892
- Online appointment system
- Official clinic website

Patients may be asked to provide:

- Full name
- Contact number
- Preferred department
- Preferred doctor
- Preferred date

- Preferred time
- General reason for the consultation

Appointment availability depends on the current doctor's schedule.

Appointment Confirmation

An appointment becomes confirmed after the booking request has been successfully processed by Nishant Care.

Patients may receive confirmation through phone, SMS, email, or the clinic's online appointment system.

Before Your Appointment

Patients are encouraged to arrive approximately **10–15 minutes before** their scheduled appointment.

Patients should bring:

- Identification document
- Previous medical reports
- Current prescriptions
- Relevant diagnostic reports
- Referral documents when applicable

Late Arrival

Patients arriving late may experience delays or may need to reschedule their appointment depending on the availability of the doctor and other patients.

Cancellation

Patients who cannot attend their appointment should contact Nishant Care as early as possible.

Cancellation can be requested by:

- Calling 9866835892
- Contacting reception
- Using the online appointment system

Rescheduling

Appointments may be rescheduled based on available slots.

Patients should provide their original appointment details when requesting a change.

6. Clinic Policies

Patient Registration Policy

Patients may need to register before receiving healthcare services.

Patients are expected to provide accurate information, including their name, contact information, and other information required for healthcare services.

Existing patients should inform the clinic if their contact information changes.

Patient Privacy and Confidentiality

Nishant Care respects patient privacy and maintains appropriate confidentiality of patient information.

Patient information should only be accessed or shared by authorized personnel for legitimate healthcare, administrative, legal, or operational purposes.

Patients can contact the clinic reception for questions regarding privacy and information handling.

Medical Advice Policy

The Nishant Care clinic assistant provides general educational and clinic-related information.

The assistant does not:

- Diagnose medical conditions
- Prescribe medication
- Change medication dosage
- Replace a doctor
- Replace emergency medical services
- Make final treatment decisions

Patients should consult an appropriately qualified healthcare professional for diagnosis and individualized treatment.

Emergency Policy

The clinic assistant is not an emergency response service.

Patients experiencing potentially life-threatening symptoms should seek immediate emergency medical care or contact the appropriate emergency service.

Examples of potentially serious warning signs include:

- Severe chest pain
- Severe difficulty breathing
- Loss of consciousness
- Severe bleeding

- Sudden weakness or paralysis
- Severe allergic reaction
- Serious injury
- Other symptoms that appear immediately life-threatening

Patients should not delay emergency care while waiting for a chatbot response.

Payment Policy

Patients are responsible for applicable charges for consultations, diagnostic services, procedures, and other services.

Nishant Care accepts the following payment methods:

- Cash
- Debit or credit card
- Bank transfer
- Digital wallet
- QR payment

Patients should confirm the current service fee before payment when necessary.

Refund Policy

Refund eligibility depends on the service and the clinic's applicable refund rules.

Patients requesting a refund should contact Nishant Care reception with their payment and appointment details.

Refund processing may require administrative verification.

Visitor Policy

Patients may be accompanied by a reasonable number of family members or support persons.

The clinic may limit visitors in specific departments or situations to maintain patient privacy, safety, and comfort.

Visitors should follow staff instructions and maintain a quiet and respectful environment.

Medication Policy

Patients should take medicines according to instructions provided by qualified healthcare professionals.

The clinic assistant should not recommend prescription medication, medication dosage, or treatment changes without appropriate professional evaluation.

Patients should contact their doctor or pharmacist when they have questions about a prescribed medicine.

7. Patient Responsibilities

Patients visiting Nishant Care are encouraged to:

- **Provide Accurate Information**
Provide correct personal, medical, allergy, medication, and contact information.
- **Attend Appointments on Time**
Arrive on time and inform the clinic early if you need to cancel or reschedule.
- **Bring Relevant Documents**
Bring identification, medical reports, prescriptions, and referral documents when applicable.
- **Follow Medical Instructions**
Follow instructions given by qualified healthcare professionals and ask questions when unclear.
- **Report Health Changes**
Inform healthcare professionals about new, worsening, or unexpected health changes.
- **Respect Clinic Staff and Patients**
Treat doctors, staff, and other patients respectfully and avoid disruptive behavior.
- **Follow Health and Safety Rules**
Follow clinic instructions related to hygiene, infection prevention, restricted areas, and safety.
- **Protect Patient Privacy**
Respect the privacy and confidentiality of other patients.
- **Pay Applicable Fees**
Pay charges for consultations, tests, treatments, and other services according to clinic policy.
- **Keep Contact Details Updated**
Provide updated phone numbers, email addresses, and other required information.
- **Use the Clinic Assistant Appropriately**
Use the assistant for general information and clinic guidance; it does not replace a healthcare professional.
- **Seek Emergency Care When Necessary**
For serious or life-threatening symptoms, seek immediate emergency medical care.
